

Mounting Steering Wheel Unit, Control Panel and Foot Pedals.

※Please contact the manufacturer directly for information about specific racing wheel cockpits and stands.

HPC-042 HORI 7-Speed Racing Shifter for WindowsPC

- ※1:This product can be attached to a racing cockpit compatible with M6 bolts.
- ※2:Two M6 bolts are needed to attach this product to a racing wheel cockpit.
- ※3:The length of the M6 bolt can be the thickness of the fixed surface + 10 mm to 14 mm.
If wider bolts are used, there is a risk that the inside of the product may be damaged, or it may not properly attach. Please refer to the image below.
- ※4:Steering wheel stand and M6 screws sold separately.

Clamp Attachment

- ※1 : The racing wheel can be attached to a hard surface that has a thickness of 6mm~55mm. Please refer to Image 2 for reference. This product will not properly attach to a surface that exceeds 6mm~55mm.
